

TALES OF THE CUP

A virtual event enhancement delivered by the Hockey Hall of Fame

THE EXPERIENCE

Hosted by one of our Senior Curators, add the Hockey Hall of Fame to your next virtual event and create a lasting impression.

Since 1995, the Stanley Cup has spent summers travelling around the globe as the special guest of the NHL's championship team, its players, and management.

Our HHOF Curators chaperone the Stanley Cup as each Champion assumes possession of the trophy for one day of celebration and touring. They will share with your guests exclusive stories, videos, and photographs of the adventures with one of most notorious trophies in sport.

CUSTOMIZATION

Stories will entertain your guests, but at your request they can also be tailored to meet important themes for your event such as teamwork, inclusion, and perseverance. Your guests can also have the opportunity to interact with the HHOF Curator throughout the experience, including Q&A sessions and trivia.

Additional cost for customization may apply.

AV REQUIREMENTS

The HHOF Curator will be equipped with a high-res audio-video system. The client should provide the meeting ID and password for the HHOF Curator to join their video conference.
